SUMMARY FOR RSVP MOVIES

From the SQL queries we can conclude the cast and crew of the RSVP movies next project. Using the data, we can get the top genres which are watched by the audience and March month will be very good for release of the film. We can also observe USA and India produce huge number of movies in a year. From the data we got the top three directors in the top three genres whose movies have an average rating greater than 8. From the top three list we can choose our director and James Mangold topped the list so we can hire him as our director. From the data we can get the top three production houses based on number of votes received for their movies. Based on this we can partner with one of the biggest production houses in the world. Now getting into the casting group, we can get the top two actors whose movies have a median rating is greater than 8. WE can observe Mammootty and Mohanlal are topped the list. Since RSVP Movies is based out of Mumbai, India also wants to woo its local audience. RSVP Movies also wants to hire a few Indian actors for its upcoming project to give a regional feel. So, we ranked actors with movies released in India based on their average ratings and the actor should have acted in at least five Indian movies. And from this we can hire Vijay Sethupathi and from the Bollywood actress list we can hire Taapsee Pannu for our upcoming project. And we can get leading actress from the top 3 actresses in the world based on number of Super Hit movies (average rating >8) in drama genre. We can observe Parvathy Thiruvothu, Susan Brown, Amanda Lawrence topped the list. From these observations we can conclude our cast and crew for RSVP next project.
